Lab exercise

This exercise is about structuring information with HTML and applying styles and layout using CS..

What you see here is a tribute page to the best holiday you have ever had.

My best holiday

Landscape from US (photo of my own)

"This is one of the best vacations I have ever had.
I will have to do it again some day."

Food

Elementum curabitur vitae nunc sed velit dignissim. Elit scelerisque mauris pellentesque pulvinar pellentesque habitant morbi. Commodo elit at imperdiet dui.

Weather

Elementum curabitur vitae nunc sed velit dignissim. Elit scelerisque mauris pellentesque pulvinar pellentesque habitant morbi. Commodo elit at imperdiet dui.

Activities

Elementum curabitur vitae nunc sed velit dignissim. Elit scelerisque mauris pellentesque pulvinar pellentesque habitant morbi. Commodo elit at imperdiet dui.

My story

Lorem ipsum dolor sit amet, consectetur adipiscing elit, sed do eiusmod tempor incididunt ut labore et dolore magna aliqua. Enim nec dui nunc mattis enim ut tellus elementum sagittis. Sed risus ultricies tristique nulla aliquet enim. Morbi tristique senectus et netus et. Sed risus ultricies tristique nulla. Est ante in nibh mauris cursus. Aliquam faucibus purus in massa tempor nec. Sed blandit libero volutpat sed cras ornare arcu dui vivamus. At tellus at urna condimentum mattis pellentesque id nibh. Facilisis gravida neque convallis a cras semper auctor neque. Mattis rhoncus urna neque viverra justo nec ultrices. Dignissim sodales ut eu sem integer. Amet mattis vulputate enim nulla aliquet porttitor lacus luctus. Euismod lacinia at quis risus sed vulputate. Hendrerit gravida rutrum quisque non tellus orci. Eget lorem dolor sed viverra ipsum.

Thank you!

The page has:

1. A <h1> heading "My best holiday"

2. A mood picture from the best holiday. Maybe you have one on your smartphone you can use?

3. A quote

4. Cards that are placed in a flex box. Each card describes key points from the holiday.

5. A <h2> heading "My story".

6. A paragraph that has columns as its inner display. This section describes the holiday in more detail.

7. A "thank you" paragraph

Your task is to:

1. Go to the start folder and open the index.html to see, what I have already prepared for you.

2. Link the HTML to the external stylesheet.

3. Give the HTML elements the appropriate CSS style by creating the CSS rules and attach these rules to the HTML elements using the *class* selector.

   You see my CSS specifications on the next page.

Morten Bonderup

Remember to make a link from the HTML document to the CSS document.

Make the CSS rules from the following specifications and attach them to the appropriate HTML element following these descriptions:

The <h1> heading "My best holiday"

The heading has a top margin set to 15 pixels and is centered.

The mood image

The image is displayed as a block element. Its max-width is set to 100% and it is centered using margin: 0 auto. Its border-radius is 10 pixels to make smooth corners.

The quote

The quote is displayed as a block and its font size is 1.5rem. Its font belongs to the Verdana, Geneva, sans-serif family. I have used padding to align the quote vertically so I have set the padding to 60px. The quote is also centered horizontally. The text color is white. The height of the element is 11.75rem and the margin top and bottom is both 30 pixels. Its border-radius is 10 pixels to make smooth corners.

The cards placed in a flex box

The cards have the same style as shown in previous examples: width: 15rem; height: 13.75rem; The colors are lightgreen, skyblue and yellow. The flexbox has justify-content set to space-between and flex-wrap is set to wrap;

The <h2> heading "My story".

It has a margin top of 30px and a margin bottom of 10px.

The columns paragraph

It has the maximum column width set to 250 pixels.

The "thank you" paragraph

Its text is centered with a top and bottom margin of 20px.

Morten Bonderup
